APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use, and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 64768, which changed the point of diversion, place of use, and manner of use of a portion under Permit 53922, which changed the point of diversion of water appropriated under claim of vested right as evidenced by Proof of Appropriation of Water 04883, is issued with the understanding that no other rights on the source will be affected by the change proposed herein.

The well shall be equipped with a 2-inch opening for measuring depth to water.

If the well is flowing, a valve must be installed and maintained to prevent waste.

A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use.

The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed.

The State reserves the right to regulate the use of the water under this proposed change at any and all times.

This permit is issued subject to any determination of the waters of an underground source that may be made under adjudication proceedings under NRS 533.090 through 533.320.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.033 cubic feet per second, but not to exceed 9.92 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

July 11, 2001

Proof of completion of work shall be filed before:

August 11, 2001

Water must be placed to beneficial use on or before:

July 11, 2002

Proof of the application of water to beneficial use shall be filed on or before:

August 11, 2002

Map in support of proof of beneficial use shall be filed on or before:
